IMTIAZ ALI

Web developer

PROFILE

I have developed a passion for coding, primarily using Java throughout my coursework. Eager to apply my knowledge to an internship experience where I can further develop my software engineering skills. Work with a variety of clients to build their back-end and front-end interfaces.

ACTIVITIES & INTEREST

Enjoy contributing to open-source projects and engaging in programming challenges. Actively participated in coding boot camps and tech meetups to enhance web development skills. - Enthusiastic about exploring

EDUCATION

➢ Matriculation: In the science group from Karachi
➢ Now I'm completing the three-year diploma in ACCP(Aptech Certified Computer Professional) from Karachi

TECHNICAL SKILLS

- Proficient in HTML5, CSS3 & JavaScript
- Familiarity with the responsive web design principle
- Knowledge of front-end framework likes bootstrap
- Understanding of version controlling system (Git)
- Basic understanding of back-end technologies (Nodes.js)
- Ability to troubleshoot & debug code

PROJECTS

1. Portfolio website
2. Designed and developed a personal website to showcase projects & skills.
3. Utilized HTML, CSS & JavaScript to create an attractive and visually appealing user interface.
4. Implemented responsive design for optimal viewing on various devices.
5. Developed a weather application that fetches real-time weather data using a third-party API.
6. Created an intuitive user interface with CSS styling and interactive elements using JavaScript.
7. Displayed weather information based on user location or search input.
8. Built a dynamic to-do list application to add, remove, and mark tasks as completed.
